**Whitepaper**

## **CatBoy**

**CatGirl has found her soulmate. He's called CatBoy. Witness how CatBoy will conquer the Binance Blockchain and go to the highest high Binance Blockchain has ever seen. Join our Telegram to be part of this awesome community.**

## **Team**

**Our battlehardend team is ready to take on any obstacle. CatBoy can proudly count on it's 4 core members that each have a wide variety of skills and deep knowledge in the crypto space. Besides the core members, we also rely on a wide variety of other talented admins and mods from the crypto space to make our vision reality.**

## **Safety**

**To ensure the safety of all investors funds, we've implemented a variety of safety mechanisms and worked with one of the leading developer in the binance smart chain space on our contract.**

- 1. Liquidity is locked for an extended period (check pinksale)**
- 2. We've implemented multiple anti bot and anti snipe measures to prevent unfair behavior from evil minded entities.**
- 3. One core member is fully doxxed, and the other core members are doxxed within the group to each others.**
- 4. No mint functions or other rug like features**
